<p>Results</p>	<ul style="list-style-type: none"> ■ Eucerin® Impure Skin products are highly effective in comedolysis of non-inflammatory lesions. The results show a highly significant reduction in comedones of up to 56%. ■ Long-term use of the Cleansing Gel alone led to a highly significant reduction in comedones. ■ The onset of comedolytic action is markedly earlier with the combined use of the products.
<p>Conclusion</p>	<p>The Eucerin® Impure Skin products tested are highly comedolytic. They significantly reduce the number of comedones and blemishes.</p>
